The Oman Web Awards is a leading award ceremony held in Oman every year that honours excellence on the Internet. As the much anticipated Oman Web Awards 2010/11 enters its 6th successful year, the award ceremony encourages all sectors to become part of the digital economy.

Presented by Spotlight Events and held under the patronage of the e.oman Initiative of the Information Technology Authority (ITA), this award ceremony recognises promising web and business developers and their contributions to promote the spirit of innovation and creativity, raise the standards of web based solutions, advocate development of local talent and promote intellectual property awareness.

Oman Web Awards is an ideal platform for all industrial sectors to showcase their websites that corroborates the customer's confidence in the organisation and its services. It is an excellent opportunity for Oman's listed companies to manifest their corporate profile and future development strategies through attractive and informative advertising. Reflecting the tremendous growth of the Internet as a tool for business and everyday lives, the award ceremony expands the mission of honoring excellence in websites and other digital media.

To commemorate the award ceremony, SJS Group Oman will be publishing an Event Catalogue for Oman Web Awards 2010/11. The catalogue will be an official guidebook for the event. Your participation in the book will give you the best possible branding in the local market and beyond.
